

SUMMARY

Software Engineering student open to full-time and co-op software developer roles in Toronto/GTA. Combines full-stack project experience with 5+ years of IT systems experience, bringing strong habits in debugging, production support, deployment validation, technical documentation, and systems reliability. Interested in building reliable, user-focused software while contributing to collaborative engineering teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, C

Frontend: React, Next.js, Vite, HTML5, CSS3, Tailwind CSS, Responsive Design, Accessibility

Backend & Data: Node.js, Express, MongoDB, REST APIs, OpenAPI, Zod, API Design, Data Modeling

Tools & Practices: Git, GitHub Actions, Docker, Vitest, Playwright, Debugging, Code Review, Documentation, Deployment Validation

PROJECTS

IT Ticketing System

TypeScript, React, Express, MongoDB

Live: [it-ticketing-system-pi.vercel.app](#) | [GitHub: github.com/proyneon-hub/it-ticketing-system](#)

- Built a role-based IT service desk: a layered TypeScript/Express API on MongoDB with Zod validation, a typed React client with routing and optimistic edits, and an OpenAPI 3.1 contract enforced by tests.
- Implemented a workflow state machine with versioned edits, single-use rotating refresh tokens, SLA escalation, and a transactional outbox for webhook notifications; recorded eight design decisions.
- Backed it with 723 automated tests (96.7% API coverage), a Dockerised stack, and a CI pipeline that smoke-tests the deployed site.

Chess Game

Next.js, React, TypeScript, MongoDB

Live: [test-chess-game-roy-kappa-five.vercel.app](#) | [GitHub: github.com/proyneon-hub/Chess-Game](#)

- Built a full-stack chess game on Next.js 15 and React 19 with local, computer (Easy, Normal, Advanced), and private online play sharing one deterministic rules engine.
- Ran the computer search in a Web Worker and committed online moves with compare-and-swap versioning and idempotent receipts; versioned the rules so saved games keep their behavior, pinned by seeded replay tests (267 unit and 28 browser tests).

Personal Portfolio

HTML, CSS, JavaScript

Live: [pramitroy.vercel.app](#) | [GitHub: github.com/proyneon-hub/personal-portfolio](#)

- Built a lightweight, accessible portfolio with semantic HTML, modern CSS, modular JavaScript, and SEO metadata, deployed on Vercel from GitHub with security headers.

PROFESSIONAL EXPERIENCE

IT Technician, Blum Technology, formerly CDI Technologies - Markham, ON

May 2019 - Nov 2023

- Resolved hardware, software, operating system, and network issues for corporate and educational clients through L1/L2 support.
- Prepared approximately 200 devices per week through repair, configuration, cloning, imaging, testing, and secure data wiping.
- Supported thousands of device workflows over 4+ years and configured/repairs Chromebooks for TDSB deployments.
- Installed and supported Windows systems, updates, drivers, and security patches; documented repeatable troubleshooting steps.
- Trained and onboarded 10-15 employees on standardized device preparation, troubleshooting procedures, and technical workflows.

Security Concierge, SMS Securities - Toronto, ON

May 2024 - Present

- Maintained detailed incident, visitor, and delivery logs; trained 5-6 new recruits on procedures and reporting expectations.

IT Support, Neon Valley Signs Ltd. - Etobicoke, ON

Oct 2016 - Nov 2018

- Supported hardware, printers, network devices, software applications, PC connectivity, and general IT maintenance.

EDUCATION

CERTIFICATION

McMaster University

Expected 2028

B.Tech in Software Engineering | Full-Time & Co-op Candidate

Google IT Support Professional Certificate

Issued Oct 2024
