Pramit Roy

QA / SDET Candidate | Full-Time & Co-op | Testing, Debugging, Python, JavaScript, SQL, Git | 5+ Years IT Systems Experience

Toronto, ON royp15@mcmaster.ca linkedin.com/in/pramit-roy-338729289 github.com/proyneon-hub pramitroy.vercel.app

SUMMARY

QA / SDET candidate with software project experience and 5+ years of IT systems background. Experienced in issue isolation, root-cause troubleshooting, deployment validation, documentation, process adherence, and device testing. Open to full-time and co-op QA / SDET, test automation, Software Analyst, or systems QA roles in Toronto/GTA.

TECHNICAL SKILLS

Testing & QA: Playwright, Vitest, Supertest, Axe Accessibility, OpenAPI Contract Testing, pgTAP, k6, Test Plans, Bug Reports, Regression Testing
Languages: Python, JavaScript, TypeScript, SQL, Java
Web/API: REST APIs, React, Next.js, Node.js, Express, MongoDB, HTML/CSS
Tools: Git, GitHub Actions, Docker, Browser DevTools, CLI, Documentation
Systems: Device Testing, Deployment Validation, Network Fundamentals, Troubleshooting

PROJECTS

IT Ticketing System — **TypeScript, React, Express, MongoDB, Playwright**
Live: it-ticketing-system-pi.vercel.app | GitHub: github.com/proyneon-hub/it-ticketing-system

- Built and tested a role-based service desk with 723 automated tests in six layers: API on a real in-memory MongoDB, OpenAPI contract, mocked and real-stack Playwright in three browsers, Axe accessibility, and pytest, with 96.7% API coverage enforced in CI.
- Logged 22 defects, each with a written root cause and a regression test that fails without the fix, including three failures that only the deployed site exposed.
- Added a staged GitHub Actions pipeline with CodeQL, a post-deploy smoke test, and an hourly live check that opens and closes incident issues.

Job Application Tracker — **Next.js, Supabase, pgTAP, Playwright, Axe**
Live: job-application-tracker-two-beryl.vercel.app | GitHub: github.com/proyneon-hub/Job-Application-Tracker

- Proved per-user data isolation with a 27-check pgTAP test in CI (8 fail with row-level security off), plus Playwright tests with axe-core WCAG 2.2 AA scans in light and dark themes; broke the code under test to confirm each test fails.

Chess Game — **Next.js, TypeScript, MongoDB, Vitest, Playwright**
Live: test-chess-game-roy-kappa-five.vercel.app | GitHub: github.com/proyneon-hub/Chess-Game

- Tested a full-stack chess game with 267 unit and integration tests (including real MongoDB concurrency, perft move generation, and seeded replay fingerprints) and 28 Playwright browser tests with Axe scans on every pull request.

Enterprise Network Design — **Cisco Packet Tracer, VLANs, OSPF, ACLs**
GitHub: github.com/proyneon-hub/enterprise-network-design

- Configured a secure multi-site network and validated connectivity, segmentation, restricted paths, and blocked traffic.

PROFESSIONAL EXPERIENCE

IT Technician, Blum Technology, formerly CDI Technologies - Markham, ON — **May 2019 - Nov 2023**

- Resolved hardware, software, OS, and network issues by isolating symptoms, reproducing failures, and validating fixes.
- Performed validation checks for approximately 200 devices per week across repair, configuration, cloning, imaging, and data wiping.
- Supported thousands of device workflows over 4+ years, confirming deployment readiness and documenting recurring issue patterns.
- Configured and repaired Chromebooks for TDSB; installed Windows updates, drivers, and security patches with post-change checks.
- Trained and onboarded 10-15 employees on standardized testing, troubleshooting, documentation, and technical workflows.

Security Concierge, SMS Securities - Toronto, ON — **May 2024 - Present**

- Maintained accurate incident, visitor, and delivery logs; trained 5-6 new recruits on procedures and reporting standards.

IT Support, Neon Valley Signs Ltd. - Etobicoke, ON — **Oct 2016 - Nov 2018**

- Troubleshot hardware, printers, network devices, software applications, PC issues, and network connectivity problems.

EDUCATION

McMaster University — **Expected 2028**
B.Tech in Software Engineering | Full-Time & Co-op Candidate

CERTIFICATION

Google IT Support Professional Certificate — **Issued Oct 2024**
