Pramit Roy

Software Engineering Candidate | Full-Time & Co-op | Full-Stack Development | JavaScript, TypeScript, React, Node.js, SQL

Toronto, ON royp15@mcmaster.ca linkedin.com/in/pramit-roy-338729289 github.com/proyneon-hub pramitroy.vercel.app

SUMMARY

Software Engineering student open to full-time and co-op software developer roles in Toronto/GTA. Combines full-stack project experience with 5+ years of IT systems experience, bringing strong habits in debugging, production support, deployment validation, technical documentation, and systems reliability. Interested in building reliable, user-focused software while contributing to collaborative engineering teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, C
Frontend: React, Next.js, Vite, HTML5, CSS3, Tailwind CSS, Responsive Design, Accessibility
Backend & Data: Node.js, Express, MongoDB, PostgreSQL, Supabase, REST APIs, OpenAPI, Zod, API Design, Data Modeling
Tools & Practices: Git, GitHub Actions, Docker, Vitest, Playwright, Debugging, Code Review, Documentation, Deployment Validation

PROJECTS

IT Ticketing System — **TypeScript, React, Express, MongoDB**
Live: it-ticketing-system-pi.vercel.app | GitHub: github.com/proyneon-hub/it-ticketing-system

- Built a role-based IT service desk: a layered TypeScript/Express API on MongoDB with Zod validation, a typed React client with routing and optimistic edits, and an OpenAPI 3.1 contract enforced by tests.
- Implemented a workflow state machine with versioned edits, single-use rotating refresh tokens, SLA escalation, and a transactional outbox for webhook notifications; recorded eight design decisions.
- Backed it with 723 automated tests (96.7% API coverage), a Dockerised stack, and a CI pipeline that smoke-tests the deployed site.

Job Application Tracker — **Next.js, React, TypeScript, Supabase**
Live: job-application-tracker-two-beryl.vercel.app | GitHub: github.com/proyneon-hub/Job-Application-Tracker

- Built a job-search tracker on Next.js 16, React 19, and Supabase with a keyboard-accessible kanban board, follow-up reminders, and response-rate stats; one repository interface serves both real and in-browser demo data, validated by shared Zod schemas.
- Enforced per-user privacy with Postgres row-level security, a composite foreign key, and a status-history trigger, proven by a 27-check pgTAP test in CI.

Chess Game — **Next.js, React, TypeScript, MongoDB**
Live: test-chess-game-roy-kappa-five.vercel.app | GitHub: github.com/proyneon-hub/Chess-Game

- Built a full-stack chess game on Next.js 15 and React 19 with local, computer (Easy, Normal, Advanced), and private online play sharing one deterministic rules engine.
- Ran the computer search in a Web Worker and committed online moves with compare-and-swap versioning and idempotent receipts; versioned the rules so saved games keep their behavior, pinned by seeded replay tests (267 unit and 28 browser tests).

PROFESSIONAL EXPERIENCE

IT Technician, Blum Technology, formerly CDI Technologies - Markham, ON — **May 2019 - Nov 2023**

- Resolved hardware, software, operating system, and network issues for corporate and educational clients through L1/L2 support.
- Prepared approximately 200 devices per week through repair, configuration, cloning, imaging, testing, and secure data wiping.
- Supported thousands of device workflows over 4+ years and configured/repaired Chromebooks for TDSB deployments.
- Installed and supported Windows systems, updates, drivers, and security patches; documented repeatable troubleshooting steps.
- Trained and onboarded 10-15 employees on standardized device preparation, troubleshooting procedures, and technical workflows.

Security Concierge, SMS Securities - Toronto, ON — **May 2024 - Present**

- Maintained detailed incident, visitor, and delivery logs; trained 5-6 new recruits on procedures and reporting expectations.

IT Support, Neon Valley Signs Ltd. - Etobicoke, ON — **Oct 2016 - Nov 2018**

- Supported hardware, printers, network devices, software applications, PC connectivity, and general IT maintenance.

EDUCATION

McMaster University — **Expected 2028**
B.Tech in Software Engineering | Full-Time & Co-op Candidate

CERTIFICATION

Google IT Support Professional Certificate — **Issued Oct 2024**
